

## Press release

### 06/05/2019

---

EVAUX® announces the presentation of the results of a clinical study at the 7th International Congress on Neuropathic Pain, held in London from May 9 to 11, 2019 (*7th International Congress on Neuropathic Pain \**)

\*<https://www.eventscribe.com/2019/NeuPSIG/aboutcongress.asp> Forum presenting the latest research and advances in the understanding, prevention and treatment of neuropathic pain.

The Clinical Study entitled "Interest in a local treatment in painful diabetic neuropathy", [Poster EP-124](#), demonstrates the value of local treatment in painful diabetic neuropathy.

Diabetic neuropathy includes a group of complications of diabetes that can cause pain, numbness, reduction or loss of sensitivity (to pain, heat, cold, etc.). Between 20% and 60% of people with diabetes (type 1 and type 2) have some form of neuropathy, which can be related to the feet, legs, arms or hands. 650,000 people suffer from painful neuropathy in France \*\*.

The management of diabetic neuropathy remains a challenge. Local treatment is of great interest because of the frequent side effects caused by oral treatments.

#### About the study

---

Study conducted by Professor Philips, University Hospital of Liège, on 22 patients (12 women / 10 men); Diabetes type 1: 21.05%; Diabetes type 2: 78.95%; Duration of application of LEGS & FEET: 2 times daily for 1 month.

The results of the EVAUX® study show, after one month of use of the product LEGS & FEET, a significant decrease in pain, and in particular the symptoms of pain as reported in the DN4 questionnaire.

- *burns*
- *painful cold*
- *electric shocks*
- *tingling*
- *Pins & Needles*
- *Numbness*
- *itching*

### In numbers

The symptoms of the DN4 questionnaire decrease from 30% to 67%.

58% of patients reported a reduction in pain at the end of the study (1 month).

47% of patients wished to continue using the product LEGS & FEET.

### Conclusion

The application of LEGS & FEET causes pain reduction in more than half of patients who have greatly appreciated the comfort and ease of use.

---

### About the product LEGS & FEET

---

The product LEGS & FEET, gel cream, is a care of the lower limbs intended to maintain quality skin and soothe neuropathic pain.
